The Yacht *Market Overview*

This season finds BGYB, and indeed the entire industry in general, in the midst of dealing with the consequences of the Covid-19 pandemic. In spite of the many uncertainties, we at BGYB have not been discouraged. We have instead adapted to the challenges of the current situation and continued to support both owners and clients through remote communication, and our new website welcomes further additions and improvements by the day, boosting our expedition into the virtual world. Although this year will without a doubt continue to bring many challenges, we are encouraged by recent signs of life that the market will soon resurge.

Sales

This has been a complicated season for our sales department, with the global industry suffering an approximate 50% decline in sales volume compared to the same time last year. This has been in large part caused by the overarching financial uncertainty effecting all sectors in the current climate, but has also been compounded by the difficulties created by travel restrictions and national lockdowns which have prevented potential international buyers from visiting their yacht of interest between March and June.

In spite of these issues, BGYB remains optimistic - although clients from numerous countries are still facing lockdowns and travel restrictions, since July interest has once again started to pick up. We hope to see this interest come to fruition in the weeks to come, particularly with the resumption of visits and the upcoming **Voiles de Saint Tropez** (26th of September - 9th of October), where we will be displaying some of our fleet.

On a positive note, we are proud to say that in spite of the difficulties this season our Central Agency Fleet continues to grow. Some notable mentions include our appointment to the sale of Motor Yachts Amer 116^{ft}

IL GATTOPARDO and 92^{ft} Heesen **HEARTBEAT OF LIFE**, both of whom we believe will make a big impression on the market.

Our sailing fleet has also welcomed numerous new additions, including 122^{ft} **CORTO MALTESE**, 82^{ft} **IKIGAI**, Wally 77 **GENIE** and 56^{ft} **CLAIR DE LUNE**. We have also maintained our standing within the classic yacht market with the addition of 94^{ft} **PROVENANCE** and 71^{ft} **AITOR**.

Amongst our catamarans we have welcomed 60^{ft} Outremer 5X **MOANA** and Galathea 65 **MOBY DICK**, and we have continued to grow our racing fleet with the additions of TP52 **TEAM VISION FUTURE**, TP52 **MACCHIA MEDITERRANEA** and Maxi 72 **CANNONBALL**.

Charter

In the face of countless restrictions, concerns and red tape, BGYB's charter season this summer did not grind to a halt - in fact, it was quite the opposite! Reassured by the Covid Addendums we offer for practically all our charters, with the end of lockdowns in June many of our clients took to the seas this year to engage in the high-end version of social distancing.

The West Mediterranean was a continuing favorite this summer, even more so with travel restrictions meaning that guests perhaps didn't want to venture too far from home.

Our sleek motor yacht based in the South of France, 135^{ft} **OCEAN SAPPHIRE**, garnered lots of interest as always, whilst 159^{ft} **THE MERCY BOYS** continues to consider a wide range of East Mediterranean charter destinations.

Sailing yachts Futuna 70 **ICTHUS** and 82^{ft} **AEGRIS** proved popular in the South of France this summer, whilst 79^{ft} **ELISE WHISPER**, 96^{ft} **MARGARET ANN** and 90^{ft} Sloop **WHITEFIN** were kept very busy in Italy. 82^{ft} **IKIGAI**, with her new Spanish charter license, had a particularly successful season now that she is also

able to entertain guests in the Balearics. Catamarans Ipanema 58 **ARAOK** and 50^{ft} **CURANTA CRIDHE** found themselves mainly in France and Corsica this summer, alongside fellow catamaran 78^{ft} **TAJ** and sailing yachts 100^{ft} Wally **DARK SHADOW** and 79^{ft} **TIGA BELAS**.

For those looking to charter a sleek designed hull sloop, we are particularly pleased to announce the addition of Wally sailing yacht 78^{ft} **AESOP** to our fleet; after a complete refit she is looking like new, and her stylish interior is sure to please those who take pleasure in the finer things in life.

For those still daring to venture further out, or perhaps just desperate to explore new horizons after being stuck in lockdown, we are pleased to inform you that motor yacht 171^{ft} **HALAS** is available in Turkey and is keen to take charters, and had the honor of being featured in a recent travel article in the Financial Times. M/Y 176^{ft} **SANSSOUICI STAR** and 159^{ft} mega sailing yacht **DWINGER** continue to welcome charters in Northern Europe for those looking for a less than typical charter experience.

And of course, for those looking to enjoy some winter sun, we are pleased to inform you that we are hoping to have at least two of our fleet available for charter in the Caribbean this winter, 82^{ft} **KALLIMA** and catamaran Ipanema 58 **ARAOK**, alongside **IKIGAI** if travel restrictions permit. 100^{ft} Maxi Dolphin S/Y **NOMAD IV**, who has already received numerous bookings for this winter season, is also available for charter in French Polynesia.

We are hoping to see an imminent resurgence of the worlds of regattas and yacht shows this season after a particularly quiet few months, and look forward to showcasing some of our fleet at the 22nd edition of Les Voiles de Saint-Tropez in late September. The 2020 edition brings with it an extended program, and so the unique gathering of hundreds of yachts of all ages and all eras in the bay of Saint-Tropez, is preparing to celebrate its 22nd year in style.

ELEONORA

162.5ft New Classic Schooner

Steel hull with teak superstructure, ELEONORA is an exact replica of the schooner Westward which was designed in 1910 by Nathanael Greene Herreshoff, the 'Wizard of Bristol', the designer of the America's Cup defenders which turned back all six challenges from 1893 to 1920. Westward was arguably one of the most famous racing schooners in the world.

ELEONORA not only follows Westward's heritage of big schooners racing but also, with her comfort and space, offers an unforgettable cruising and relaxation experience.

She was built at the Van der Graaf shipyard in Holland and was launched in March 2000. Since then, she has successfully participated in a number of classic sailing regattas and hosted numerous high-profile guests on board during her charter activities.

Showing astonishing beauty under her sail, ELEONORA's slender hull cuts a pathway through the sea, an elegant combination of beauty and power. Her sailing performances come without sacrificing her luxurious standards of comfort, as her staterooms and the entire interior display the ambience and elegance of another age.

ATLANTIC

212^{ft} New Classic Schooner

2010. She is the replica of legendary ATLANTIC which was commissioned in 1903. Her victorious 1905 Transatlantic Race ensured that she went down in yachting history.

After owning, restoring, rebuilding or recreating a number of famous yachts such as Thendara, Aile Blanche, Borkumriff, Zaca a te Moana and most recently Eleonora, her owner planned his ultimate masterpiece; with her overall length of 64.5 metres she is the largest classic racing schooner ever to be recreated. Above all else, she, like her inspiration, remains breathtakingly beautiful, turning heads wherever the wind takes her.

Her dimensions are simply incredible; overall, she measures a remarkable 64.5 m. Her graceful sheer line and long overhangs accentuate her grace while her waterline length of 42 m and narrow beam are a promise of unmatched speed under sail. Her spars tower some 45 m above the waterline and support a staggering area of 1,750 m² of sail, more than two and a half times that of the already awesome J-Class yachts.

**ICECAT
seventytwo**

ICECAT seventytwo represents a great step forward in the multihull design with inspirations from the automotive world. The project was born from the successful collaboration between Ice Yachts and Micheletti & Partners design studio. The streamlined hull is characterised by minimalism and clean slender lines; practicality is prioritised in order to optimise performances. The goal is to obtain a catamaran capable of reaching over 30 knots at max speed. The refined sportiness and ergonomics of each space on board allows this yacht to be created with excellent sailing characteristics without compromising the comfort expected from a multihull of over 70 ft.

Rolex Middle Sea Race

Date: 12 - 24 October 2020 - Location: Malta, Mediterranean Sea

'The most beautiful race course in the world'

The Royal Malta Yacht Club and the Royal Ocean Racing Club cofounded the race in 1968 and 2020 will be the 41st Edition. The race is a true challenge to skippers and crews who have to be at their very best to cope with the often changeable and demanding conditions. Starting from Grand Harbour, boats will sail a course leaving to port the Island of Sicily, the Aeolian Island, the Egadi Islands, Pantelleria and Lampedusa Islands, through the South Comino Channel, keeping Malta to starboard, to the finish line in Marsamxett Harbour.

Ted Turner described the MSR as 'the most beautiful race course in the world'. Apart from Turner, famous competitors have included Eric Tabarly, Cino Ricci, Herbert von Karajan, Jim Dolan, Sir Chay Blyth and Sir Francis Chichester (fresh from his round the world adventure).

Upcoming *Events*

The Boat Show calendar is filled with ample opportunity for potential buyers to discover new innovations and arrivals on the yachting scene. Presenting your yacht at one of these events attracts attention and assures that she is visible on the market.

Les Voiles de Saint-Tropez

Date: **26 September - 09 October 2020** - Location: **Saint-Tropez, France**

Confirmed from Saturday, September 26th to Friday, October 9th, the new format of the Voiles de Saint-Tropez offers an event spread over two weeks, for the modern and classic yachts.

The programme differs according to boat category with the aim to optimise registration, organisation of start zones - which will all take place in front of Saint-Tropez - and racecourses organised according to the potential of the different boats. Two great weeks on the water in Saint-Tropez.

For the first week, the on-water programme will remain unchanged for boats up to and around 20 meters. In the second week the bigger and faster modern and classic yachts will be put together to allow for courses to be set which are more adapted to their size and their speed.
